

**Phones & plans that fit every family's budget and every family's pace.**

Shifting kids to our \$5/mo. plan saves

**~\$672**

Per year per family

Average community impact would be

**~\$67,200**

per year per 100 families

## Our Mission

Safe and affordable phones & plans for families. Powered by your partnership

### Affordability

Plans from \$5/mo; simple flip phones & plans that fit all budgets.

### Phased Tech

Flip phone → Talk & text → slow data → full phone when kids are ready.

### Family-Led

Parents pick the rung. Kids earn the next one. No app, no algorithm in between.

Kids don't need endless scroll to stay connected. EQ Telecom helps schools, PTAs, and nonprofits offer families a better path; affordable and simple phones & plans that make safety accessible for every budget.

### Does this meet a real need?

Many families can't afford "safe" smartphones. Our low-cost plans & flip phones offer connection without the constant scroll and addiction.

### Why start with Talk & Text?

It teaches responsibility early. Kids begin with talk & text, then earn more access, when they show they can handle it.

### Do we need extra IT or procurement?

Not needed! Families sign up directly via QR or link. Our about page is a "how it works" one-pager.

## Ready to help 50–100 families this semester?
